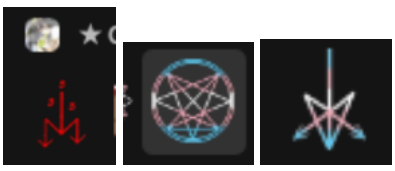
-Starlit Exposed-

Preface

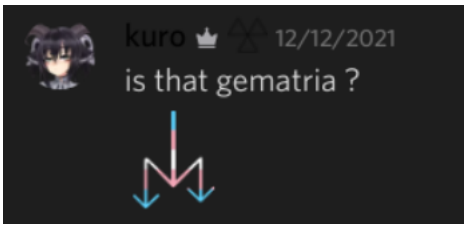
This is an exposé on Nia. Nia is Starlit/Xxtarlit/ghooooostie/Ayana/ . This document is made up of multiple people's encounters and experiences on Nia, as well as the people surrounding her. Some would like to stay anonymous for safety reasons as the people involved in this have proven to be harmful and will go after others if provoked; And some screenshots on this doc will have blurred out names in order to keep their identities secure. This exposé contains images of fascist aesthetics and organisations, blood and self-harming, slurs, and more; so please read at your own risk.

Order of the Nine Angles, the Tempel ov Blood, and Fascism

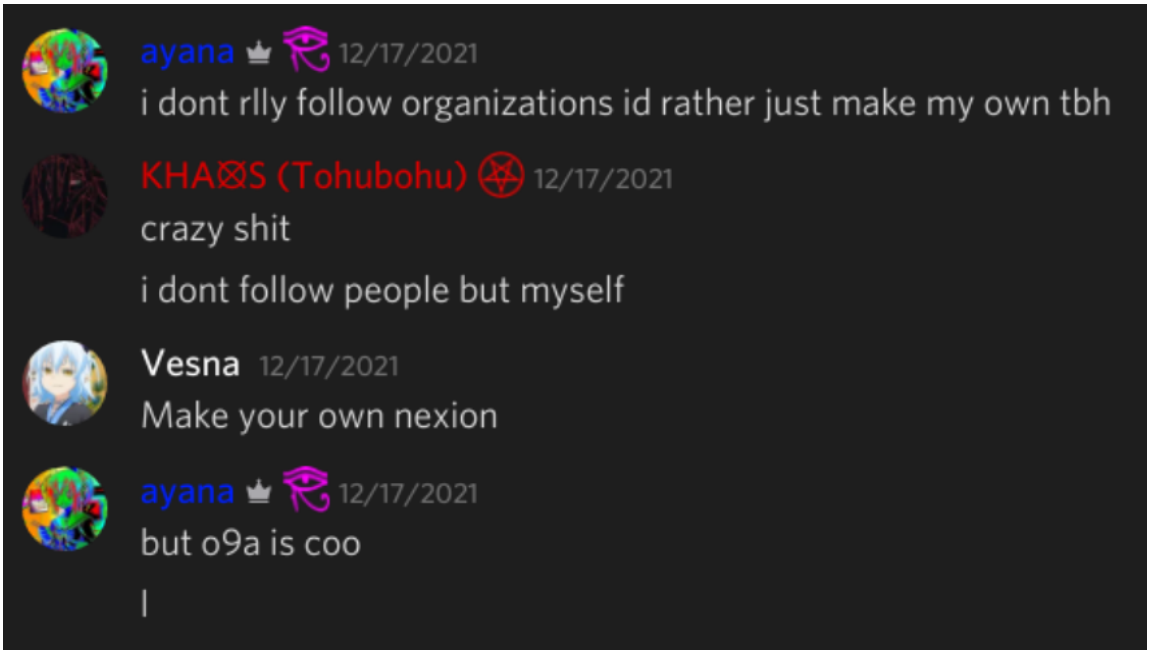
This section is going to be really long and probably the most important which is why it's first. Considering info on how the O9A is a Neo-Nazi cult is widely available online, this shouldn't fleshed out much. If there's any doubt that any of this is true just take a look at the O9A's own texts, perhaps the Nexion Zines, pique your interest(particularly 10)? Or maybe the founder, David Myatt's, own writing? (It is aggressivelyobvious that Anton Long is just David Myatt by the way. Everyone "in" the O9A knows it's him too, so don't fight that.) One could argue that *the O9A only became Fascist after the FBI takeover to stop people from taking their rightful sinister power*" but that is such obvious bullshit that it isn'tworth writing about right now; it's bullshit because even the people who say that are fucking schizo Nazis on Discord natsoc gore servers. It also doesn't matter much that the O9A doesn't associate itself with the ToB since they both exist simultaneously in most spaces, and both are connected to the Atomwaffen Division, and the ToB spawned from theO9A initially; the only difference between the O9A and ToB is that ToB members are 10x more crazy and pedophillic. Originally we were going to add a bunch of pictures to flesh out our point that the O9A and ToB are National-Socialist organisations, but the texts mostly suffice and this link here to more info should be fine. Next, though, how does this relate to Nia? Firstly, her server emotes; a transgender variant of the O9A's symbol//sigil (which is called the Septenary Star or something?), a transgender variant of the O9A's Satan//Satanassigil, andthe plain red version of the ToB's symbol//sigil (which also doubles as the sigil of Choronzon, apparently) all appear in her own server list.

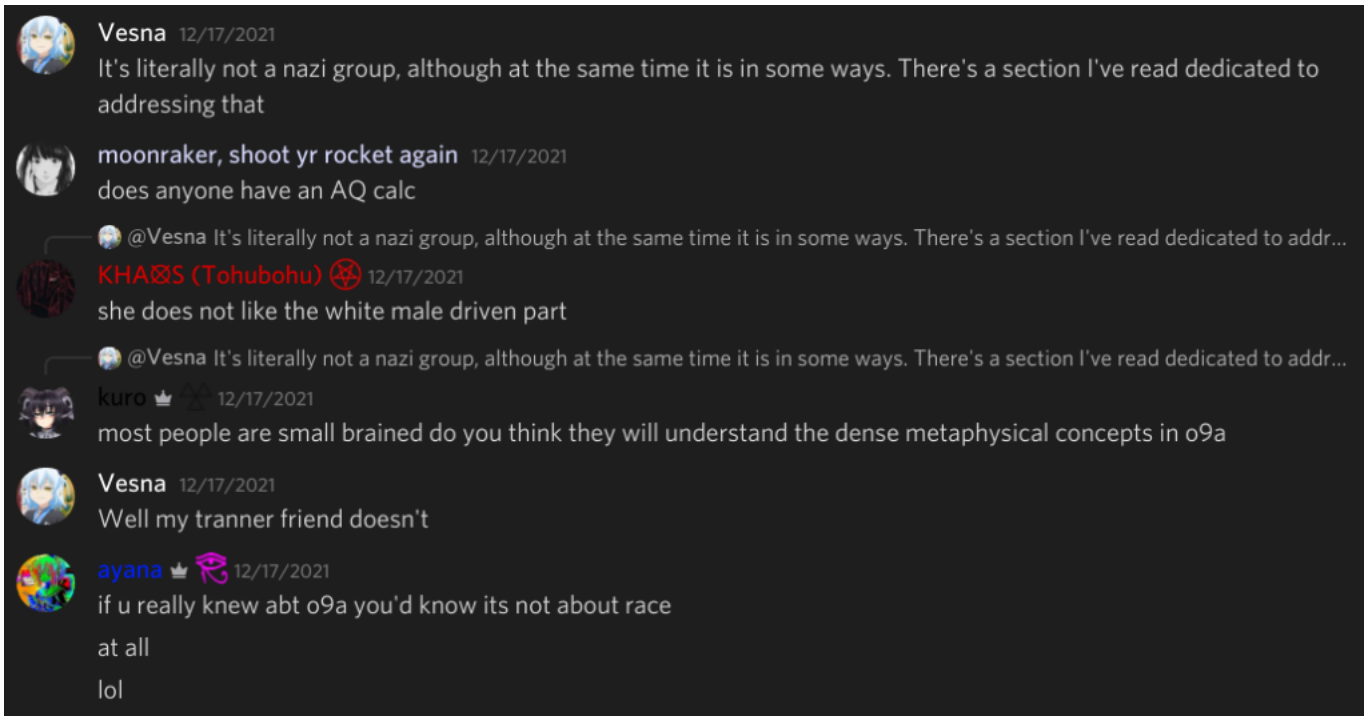


In addition to this, her boyfriend Kuro appears to be in some O9A and ToB servers which also have similar emotes, namely this trans version of the ToB sigil.



We'll get to her boyfriend in a later section, and also talk about why that last message was kinda weird, but moving on…
Here is Vesna (a member who got banned who we'll discuss about after this), Kuro/ (Nia's bf), and Nia talking about the O9A (*not being natsoc*) (there are some other people talking who aren't really related to the conversation at hand but we're keeping it there for full clarity)





Vesna 12/17/2021

Vesna 12/17/2021
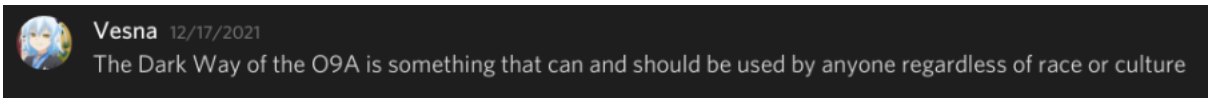
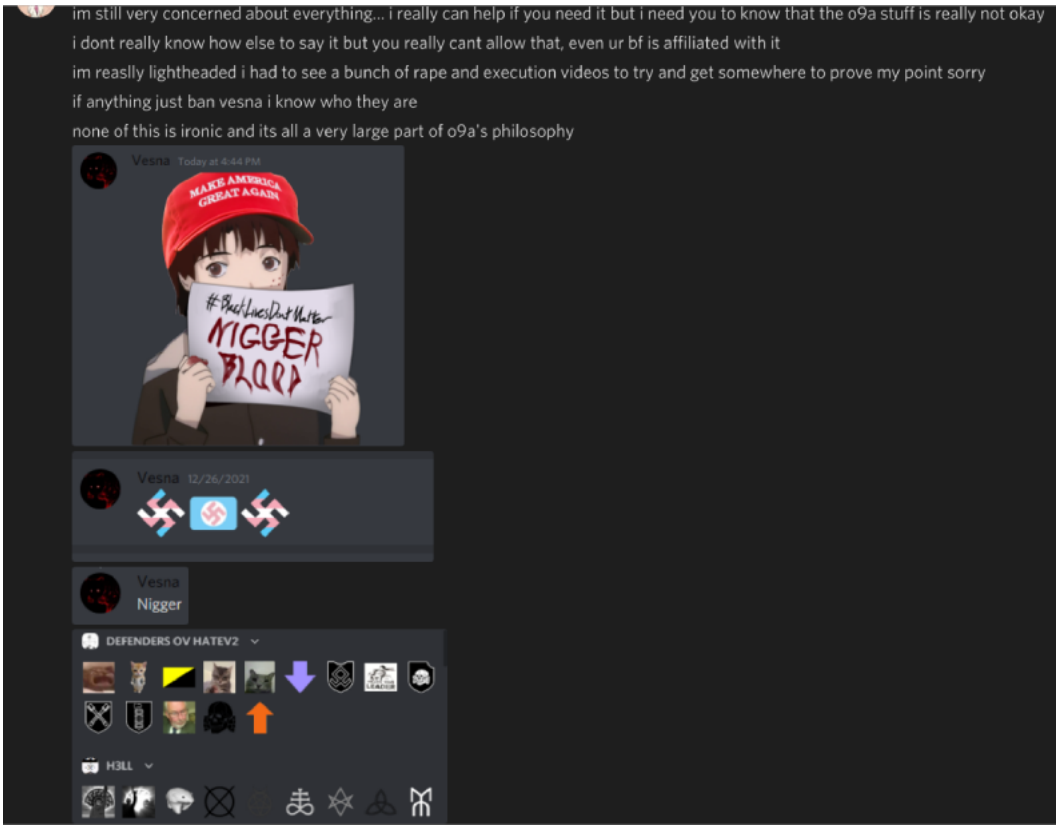
Sure you can be an ONA racist, but the organization itself isn't racist



Now, the part that makes this particularly ironic is the fact that Vesna got banned for being racist. Vesna, the person saying that the O9A isn't racist, was being racist. One user who would like to stay anonymous went through a few of those servers we cited earlier to find some more info on how O9A groups operate modernly and they found our guy here. They sent all these to Nia (noted at the time when theybelieved that Nia would listen to them)



im still very concerned about everything... i really can help if you need it but i need you to know that the o9a stuff is really not okay
i dont really know how else to say it but you really cant allow that, even ur bf is affiliated with it
im reasslly lightheaded i had to see a bunch of rape and execution videos to try and get somewhere to prove my point sorry
if anything just ban vesna i know who they are
none of this is ironic and its all a very large part of o9a's philosophy

Vindex.
Who, these days, have the largest share of control and influence of Public Opinion? Journalists do. Which is why, at the start of a totalitarian or authoritarian regime, the regime will first kill off the journalists. This was something both the Khmer Rouge and the German Nazi Part did. And it's something I agree with. And I'll explain why I agree with the age old tradition of executing journalists. I don't rhetorically pretend to be a "fascist." I am a Fascist in my Heart and Mind. But I have a different understanding of what exactly Fascism is and means.
David "Jihad" Myatt
Meet David Myatt. David, under the name Anton Long, is an agent for MI-6, British intelligence. He created O.N.A. in a, somewhat successful, attempt to merge Satanism with Neo-Nazism so that he could recruit violent moronic patsies to commit acts of terror which would benefit political agendas, but can be blamed on "devil worshiping skinheads" painted as political opposition. David is presently seeking to merge Islamic extremists with violent white skinheads. David Myatt has publicly converted to Islam. I wish him the best.
Considering the T.O.B. used BEAST BARRACKS to call for:
1. Open satanic terrorism.
2. Massing shootings.
3. Rape.
4. Kidnap.
5. Human trafficking.
6. Slavery.
7. Snuff films.
8. Murder.
9.Pedophilia (the book "Iron Gates" is about the systematic rape, sexual torture, U.K.

Though ONA is based in the U.K., it has a presence in the U.S. and ties to Atomwaffen, another far-right extremist group that saw an increase in members after the deadly 2017 Charlottesville rally. ONA literature specifically encourages members (called Noctulians) to infiltrate mainstream organizations for six months, such as a police force, the military, or a far-right political organization.
The Order of Nine Angles (ONA or O9A) is U.K.-based Nazi, Satanist occult group founded in the 1970s. The group reveres Adolf Hitler and imbues Nazi symbology with mystical meaning. ONA heralds Nazi Germany as the pinnacle of societal development and deifies Adolf Hitler. The U.S. Department of Justice has noted ONA's "Satanic, anarchist, neo-fascist, neo-Nazi, and anti-Semitic beliefs." ONA has affiliated groups in the United States, Australia, and Europe.
ONA is an accelerationist group that seeks the "breakdown and the downfall of existing societies" and their replacement with "new tribal societies." It believes society has become corrupted by Judeo-Christian beliefs. ONA thus believes society must be destroyed and replaced with a new fascist order based on social Darwinism and Satanism, a Satanic Empire. The group views modern societal norms and morality as signs of decay.
ONA promotes what it calls an esoteric philosophy focused on the hidden, inner nature of beings rather than the outer nature. ONA intends to use its "Dark Tradition" to create a "new, more evolved, human species" centered on this new tribalistic society. Unlike other neo-Nazi groups, ONA also supports violent jihadist terrorism, in line with its accelerationist philosophy to support the destruction of the current world order. In addition to its veneration of Hitler, the group has praised Osama bin Laden. Some of its texts also employ Islamic terminology, though the group is firmly Satanist.

Iron Gates Now refers to the ToB's book Iron Gates by the way, and shows a wish for its world to happen. They received no communication after this.

Before our anonymous friend got into learning about the O9A and soon after they became slightly active in her server, the ToB 333 sigil was added or it was beginning to get used, they’re unsure of which. They were given Liber 333 as an answer to who Choronzon was and why their sigil and name were 333:

Liber 333 is a collection of ToB member and associate writings; this is some of what is written in Liber 333.

What most do not understand is that strife, conflict and War (the latter being one of the most infamous no-no's of modern society, or so they say!) are essential - they are necessary for progress. They breed character. And, large scale conflicts (such as a world war for instance) further serves to clean out the dross, the weak, from the population as well as building individuals (the conquering warriors and all so intimately involved) into forces which shall need to be reckoned with in the future. Many pivotal figures of the last hundred years have been frontline fighters. An example from America would be Timothy MacVeigh. A prime example of a frontline soldier going on to enact Aeonic change would be Adolph Hitler.

When most people say they want 'peace', what they really want is to live life in a fashion where they are able to exist (note that I said exist, not live) in such a fashion that reality will not intrude. Such is an attitude which has come into vogue largely via the brain manipulation of the Nazarene ethos. What is unpleasant is evil and therefore should be avoided. This sort of attitude, combined with the soft consumerist vision of modern society - serves to breed an entire generation of weaklings.

As is stated by Adolf Hitler (an individual whom should be carefully studied by all who wish to enter into what is known as the Sinister) concerning youth: He desired the youth of his day to be an IRON YOUTH - heard as krupp steel and within their eyes, very visible, the cold hard stare of a beast of prey.

We must become as such.

People who seek "peace" as a primary objective (or people who fallaciously use the concept of peace for their own consumerist agenda) are never the sort of people who carve out nations from wild and uninhabited continents. They are not the sort of people who compose great works of music, literature or art. They are not the sort of people who become world leaders, or the sort who start world wars. The 'peace-niks' are the heroes of a sick, Magian-influenced society. They are embodied in such disgusting pieces of human filth such as Mother Thereasa, Martin Luther King Jr., ad naseum. True role-models, true heroes, have been relegated to the caste of ill repute who are commonly called 'war criminals'. Taking the place of the world leaders and men and women of action are the heroes of the degraded society - including such non-entities as sports stars, movie actresses, comedians, etc. For any who have studied history with a perspective, for any who have any sort of knowledge and lust for power - you will look at the world today and realize that there is something very wrong going on in the social engineering of today's society.

This Magian, Nazarene and weak programming is what the Satanists and the Aeonic Magickans who respect PROGRESS wish to combat. Every Satanic/Vampiric/Demonic practitioner of the Tempel ov Blood is essentially an ENEMY COMBATANT in the arena of the 'souls' of the masses.

THE BIRTH OF A DICTATOR

Directives: The length of this extended ritual will be three months in duration. Items needed include a swastika third reich blood banner (party flag of the NSDAP), a uniform of some type (militaristic or police, ideally it should either be all black with swastika armband or the brown/black uniform of the storm troopers), a packet of razor blades, a satchel of dust taken from a graveyard, apocalyptic military music (we would recommend 'Puissance' from Sweden) and a copy of 'The Mass of Heresy' from the Order of the Nine Angles. Also gather all items required by the 'Mass' manuscript. Also have study materials which should consist of all of the writings of Friedrich Nietche and a copy of Adolf Hitler's autobiography "Mein Kampf' as well as John Toland's biography 'Adolf Hitler'

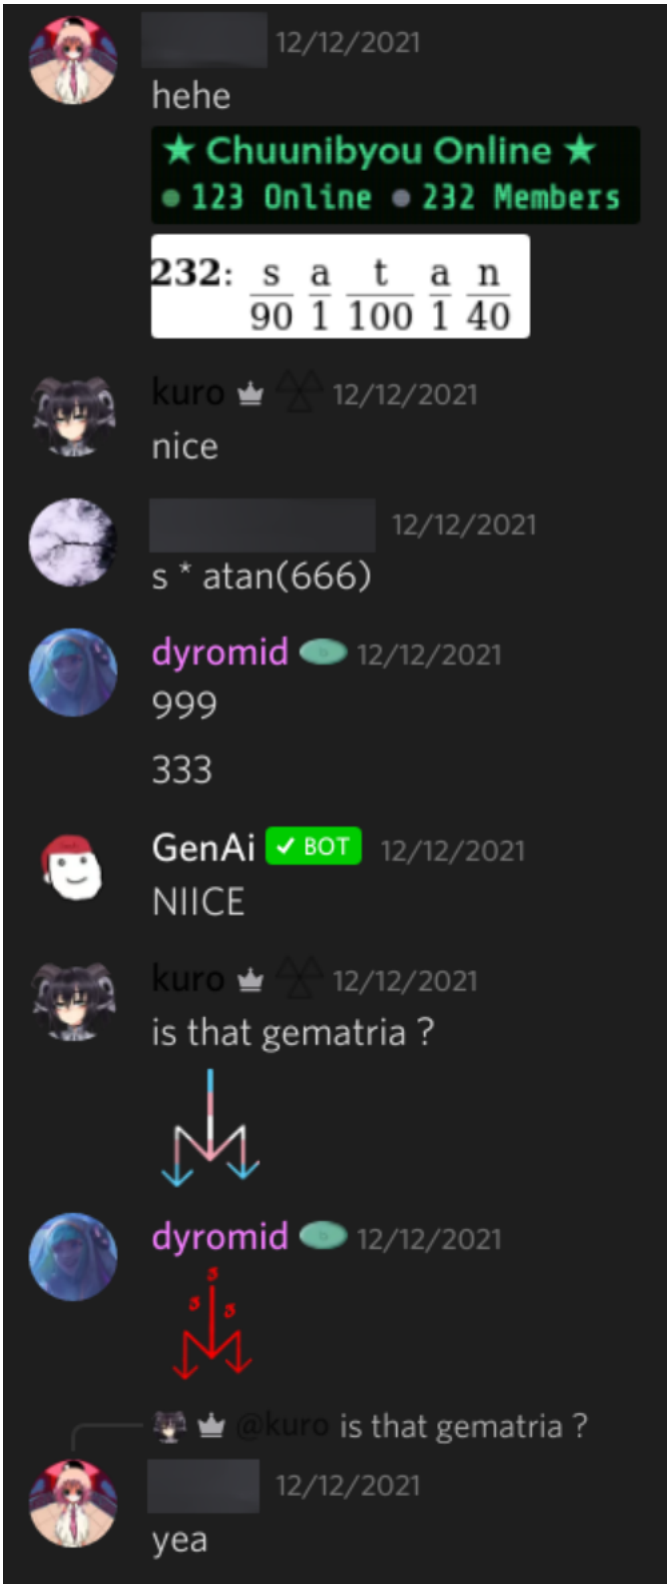
Obviously even when Vesna, Kuro, and Nia try to say that the O9A is not Fascist, it is Fascist. Kuro is probably the worst example of Fascistic behaviour, and it's all telling that he is Nia's boyfriend. I'll start lighter; this picture I showed earli 
) is part of a conversation:



This is worth mentioning since Gematria is a Jewish (as far as we can tell) invention. It comes from taking the Hebrew letters and converting them to numbers to create a numeric representation of a word. It personally feels incredibly odd to post a Neo-Nazi symbol in response to a Semetic creation, but we could be overthinking it. Continuing on; another anonymous friend as well as Kuro and Vesna had a conversation which shows Kuro's Fascistic tendencies:

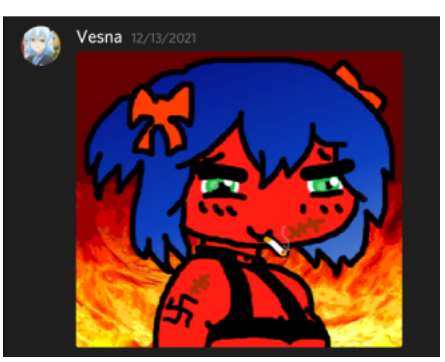
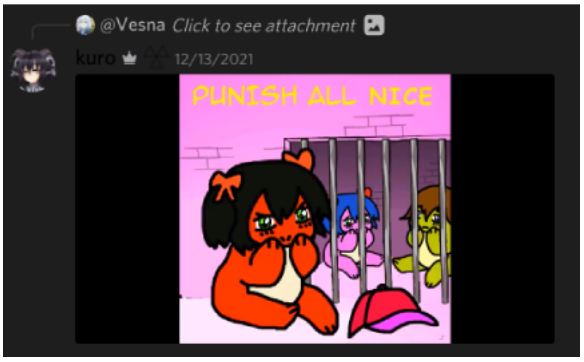
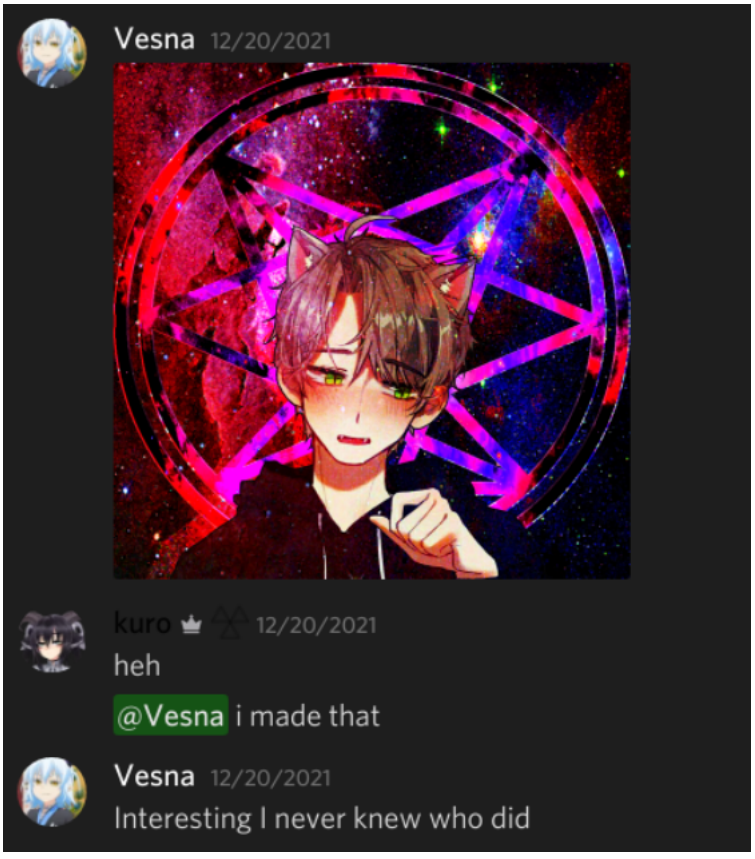
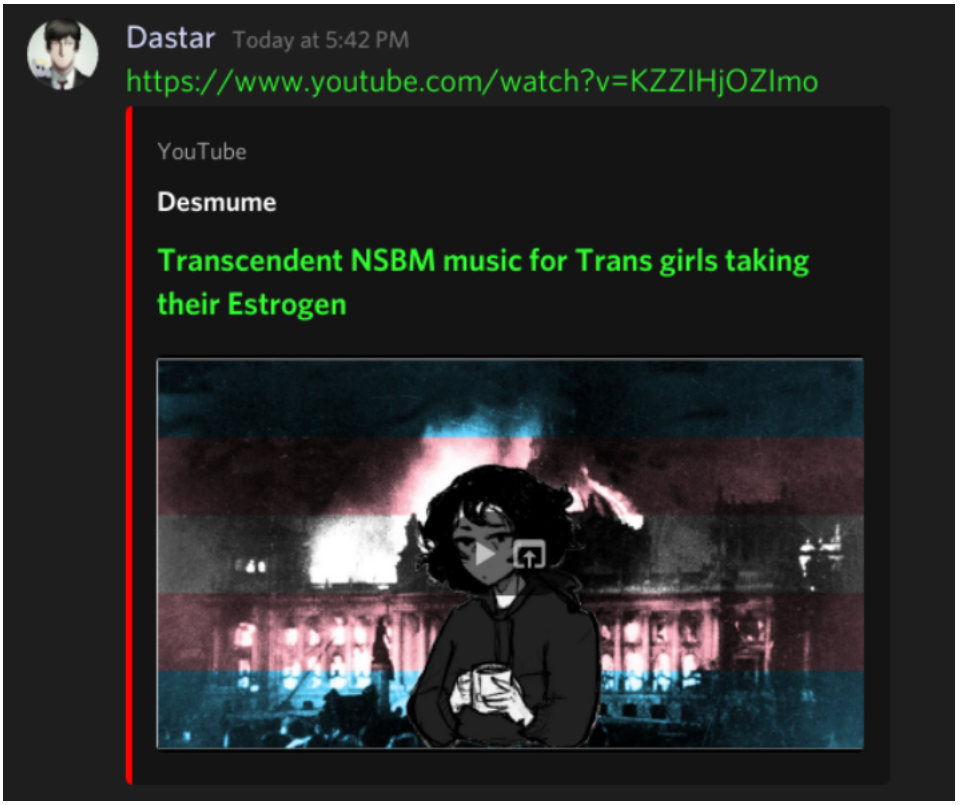
As if reading comprehension wasn't hard enough, it seems Kuro can't tell the difference between a skull and a siege mask.
This section is gonna be a little miscellaneous but it's a collection of people (mostly Kuro and Vesna) posting weird Nazi and O9A stuff:

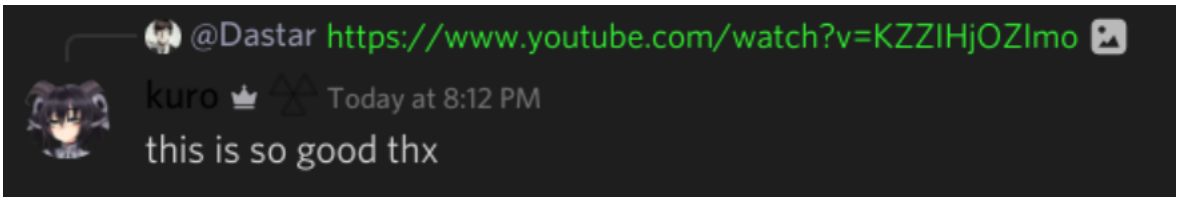




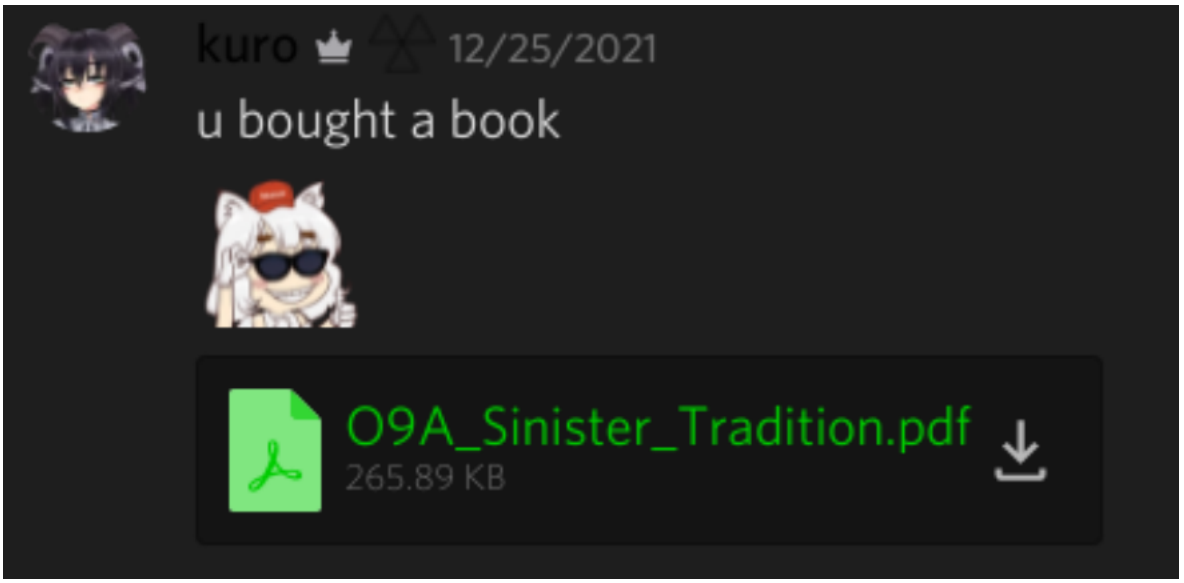
Kuro's response:







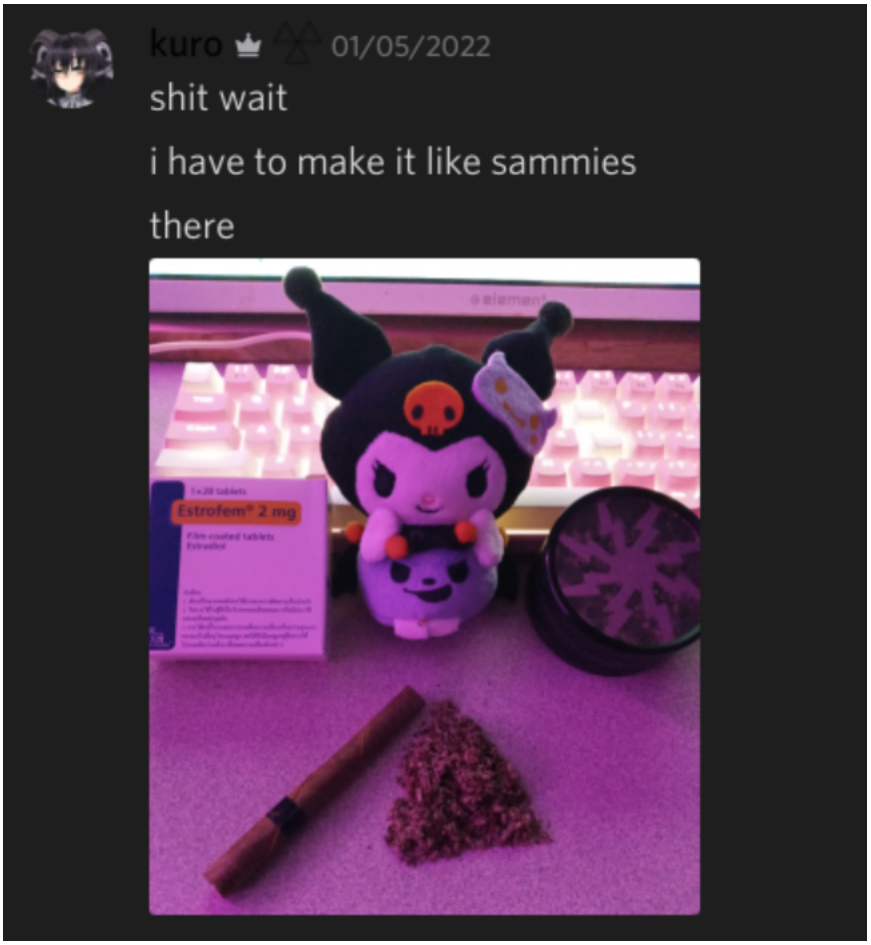
Who could've guessed Kuro likes NSBM

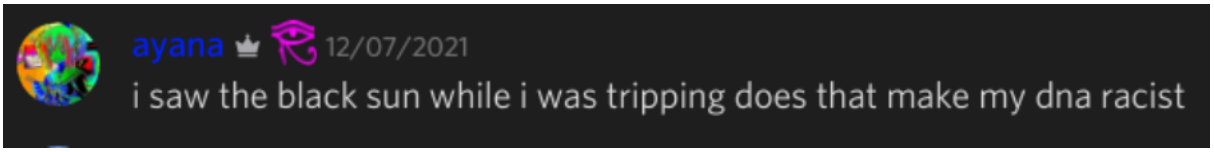


MAGA hat and O9A book.

There’s also this picture Nia drew that has a Sonnenrad looking thing in it, which is kinda suspicious:

And this drawing Nia drew that Kuro posted which has a Sonnenrad in it + the grinder he was referring to:





Issue here isn't in the Sun Wheel itself, but in its Sonnenrad form. The Sonnenrad is a specifically Nazi invention, while its Merovingian origins (or supposed Nordic Pagan origins, according to Neo-Nazis) are not. Using this version is just extremely suspicious and weird; even the Kolovrat is a lot better. (I don't know where the image Nia posted is from btw)

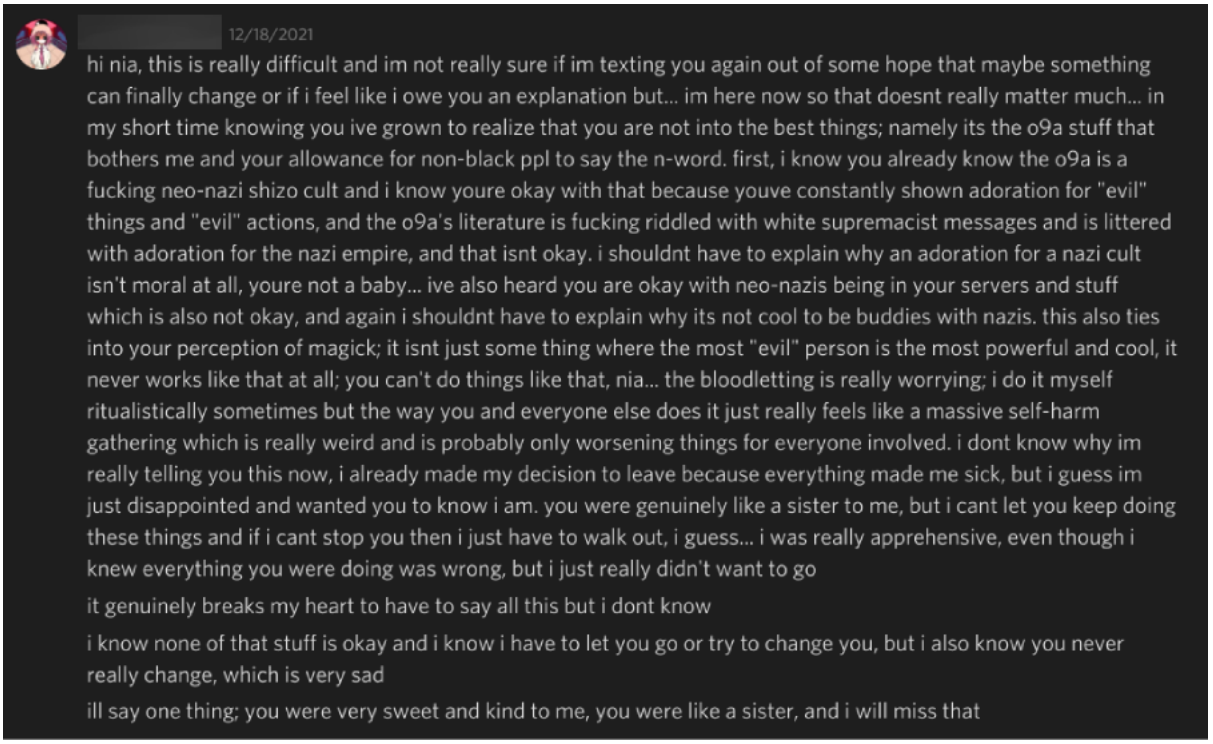
N-Word Usage

There is a consistent usage of the N-Slur by non-black people in Nia's server. Our previous anonymous friend wrote a complaint to Nia awhile back. Note that they wrote this while still hopeful Nia may not be aware of what the O9A actually is or anything like that:



[redacted] 12/18/2021

hi nia, this is really difficult and im not really sure if im texting you again out of some hope that maybe something can finally change or if i feel like i owe you an explanation but... im here now so that doesnt really matter much... in my short time knowing you ive grown to realize that you are not into the best things; namely its the o9a stuff that bothers me and your allowance for non-black ppl to say the n-word. first, i know you already know the o9a is a fucking neo-nazi shizo cult and i know youre okay with that because youve constantly shown adoration for "evil" things and "evil" actions, and the o9a's literature is fucking riddled with white supremacist messages and is littered with adoration for the nazi empire, and that isnt okay. i shouldnt have to explain why an adoration for a nazi cult isn't moral at all, youre not a baby... ive also heard you are okay with neo-nazis being in your servers and stuff which is also not okay, and again i shouldnt have to explain why its not cool to be buddies with nazis. this also ties into your perception of magick; it isnt just some thing where the most "evil" person is the most powerful and cool, it never works like that at all; you can't do things like that, nia... the bloodletting is really worrying; i do it myself ritualistically sometimes but the way you and everyone else does it just really feels like a massive self-harm gathering which is really weird and is probably only worsening things for everyone involved. i dont know why im really telling you this now, i already made my decision to leave because everything made me sick, but i guess im just disappointed and wanted you to know i am. you were genuinely like a sister to me, but i cant let you keep doing these things and if i cant stop you then i just have to walk out, i guess... i was really apprehensive, even though i knew everything you were doing was wrong, but i just really didn't want to go

it genuinely breaks my heart to have to say all this but i dont know

i know none of that stuff is okay and i know i have to let you go or try to change you, but i also know you never really change, which is very sad

ill say one thing; you were very sweet and kind to me, you were like a sister, and i will miss that

黒光☆ 12/18/2021

hello nil. i am not sure where you are getting all these ideas from. you're accusing and implying of alot of things. its a bit overwhelming. i do not support nazi things nor do i support ppl saying the n word in my server. i dont have time to moderate a server while im going through personality switches, drug withdrawals, mental battles etc. seeing people argue and fight in my server makes me feel quite bad and i cant handle looking at it, so i tend to ignore it. i am avoidant to conflict, you can fault me for that. i have a bad habit of running away from things that hurt me. i cant and dont want to have to stress over my server with all this especially when im trying to sort out false memories and trauma in my childhood. call that an excuse if you want. im trying to de-stress, i am barely holding onto life. i hold on for the people i care about, even if i can't stand the pain i go through. theres a fire in me that refuses to give up. im not very good at social things, as im very autistic. but it is becoming increasingly important to deal with and interface with social things as i get more popular, and its something i struggle with often. regardless, my perceived inaction to certain things(if they rlly are happening. im not rlly sure) does not imply that i am allowing these things to happen. that you perceive my actions as malicious saddens me. my perception of magick is not based off of pure evil, nor does being the most evil make you the most powerful. its debatable what 'most powerful' even means, or whether that accolade is important at all. I'm somewhere in-between light and dark. i am not striving for a life of evil, i give my life in devotion to the gods. to anger the gods would be against my growth, id just end up learning lessons previously given. there is a place for chaos, there is a place for growth. both cannot live without the other. I channel the energy and tools god has given me for God. Lucifer themself lies between the bridge to thaumiel and the road to the tree of life. the yin and yang. i aim to live in balance with these forces. I quite enjoy your company, although I understand why you would leave when im not particularly moderating the server. not to mention, i am nocturnal, so i am typically not awake or available to check the server during the day at peak hours, as that is when i am at rest. i don't really have anyone to moderate for me. i want my server to be a comfortable place for everyone. i try to be a mediator, to make a commune separate from everything else, i didnt want to think about anything else. im pretty awful at these complex social things, i still feel like a foreign element inside of these human social structures. me and my other selves are still learning it seems. i just wanted all my friends in one place. but things are not usually this simple. i apologize for hurting you. if i am something painful to you, i understand if you dont want to talk - but I am always open to talk if you wish.

They fell into the trap of believing what she'd said, that she may actually do something, but she has barely done anything. The only person who we've seen get banned for using the N-Slur have been Vesna and aka yourfuckingend//yourfvkingend aka Dekoro, who only got banned because one person who's actually black IRL (First one in the screenshot) called them out and made it a server issue:

it is strange, and well, most people use the same like dozen or so songs at a time
also hard to find the names of songs cuz niggas dont put the track name. its also hard cuz usually theyre not great quality either so it can be hard to distinguish lyrics for example. woe is me.

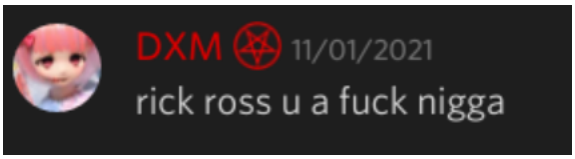
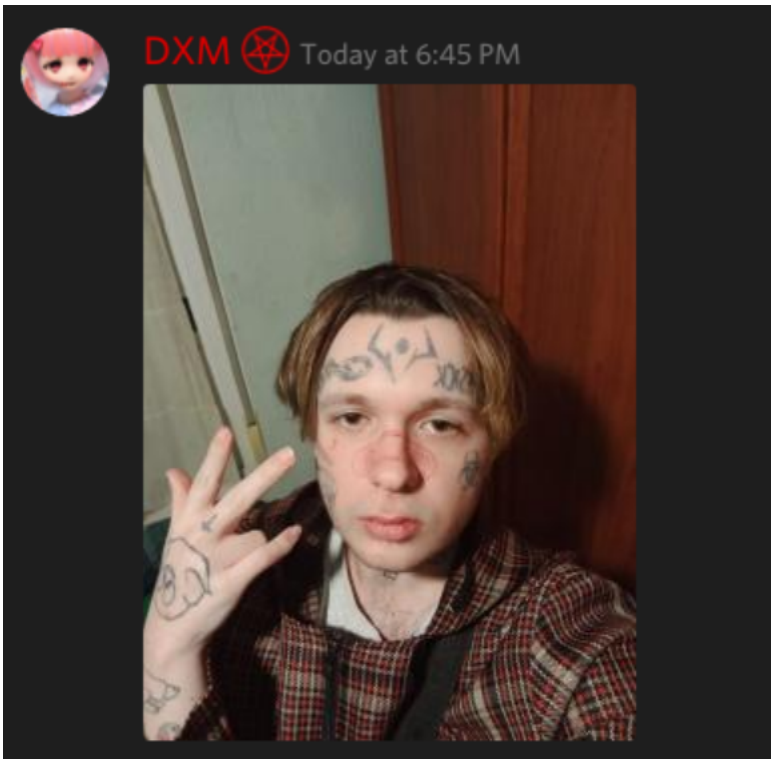
KHAOS//KL1N9Y:





I think a lot of the evidence of people saying the N-Slur has been wiped from the server; there was evidence of others saying it previously but a lot of that seems gone now, so just believe whoever you want I suppose.

Self-Harm Glorification [BLOOD WARNING]

This is where the blood and gore is, so don't read here if you're sensitive to that. Some screenshots will include the user before who's kindly given us all this information and following was a discussion I had with them regarding Nia.

"A large part of this is going to have to be my word sorry; many of the pictures are gone off the internet now due to them breaking guidelines and I lost access to a channel I'll talk about soon which had all of this in it. I met Nia in her server and she liked the art and music I did, which prompted us to become friends on Discord and began to talk. The day after we began talking I received this":

“At this point I really wasn’t sure what to do; I was already trying to be calm considering I was talking to someone I really looked up to, and seeing this was extremely odd. That is a lot of blood, and that’s a lot of cuts. I admit, yeah, I should’ve just stopped here; I don’t know why I didn’t stop talking to her here”.

“I just tried to pretend like it was normal basically, which was wrong.
This sight is pretty common in Nia’s server; that is, it’s common if you have access to Hell”.

“Hell is a channel which is only accessible with the REDLIXXXGHTS role, REDLIXXXGHTS being Nia’s collective of musicians, friends, and HEXD artists. The whole channel is basically full of gore, both drawn and real. The real thing is most sickening to me and I don’t think people should cut themselves up like that obviously. Self-harm is really encouraged there, and I wish I had the screenshots and evidence to support that right now”.

But it’s very obvious that Nia glorifies along with her collective gore and the such.

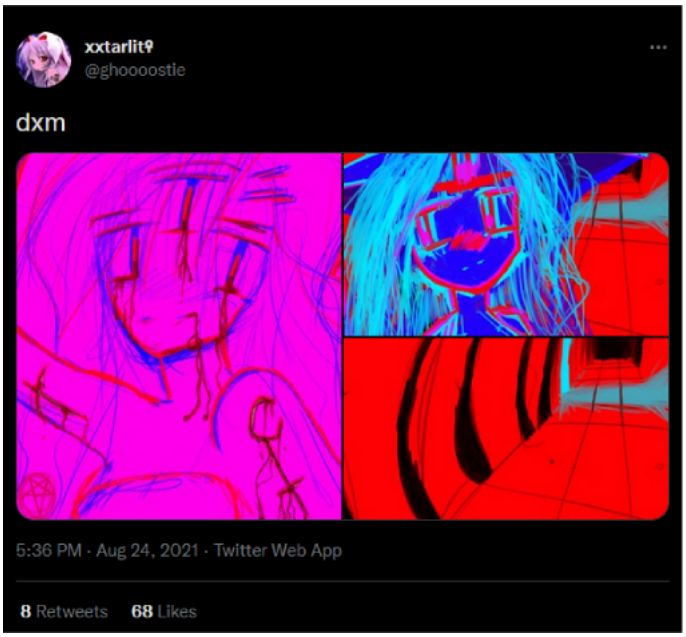
DXM Abuse & Indoctrination

This is probably the most well known information on Nia due to how public she makes of it, which is why I've left this at the bottom and this is the shortest section; as the other stuff I believe is a lot more important. Nia is a regular abuser of the drug known as Dextromethorphan (DXM). DXM is abused in high doses to experience euphoria and visual and auditory hallucinations or "Robo-Tripping". This is usually found in over the counter cough syrup and cough pills. One quick look on her Twitter can easily show how much the substance has influenced her through her art and music.

Some art.



More art.

xxtarlit9
@ghoooostie
I'm very happy right now. DXM gives me alot of mania and afterglow after really strong, amazing trips. DXM has the power to change my life for the better and im glad i was able to go thru those tough experiences and those grueling trips, because the reward is truly spectacular.
I died over 100 times!!! lol!!^^

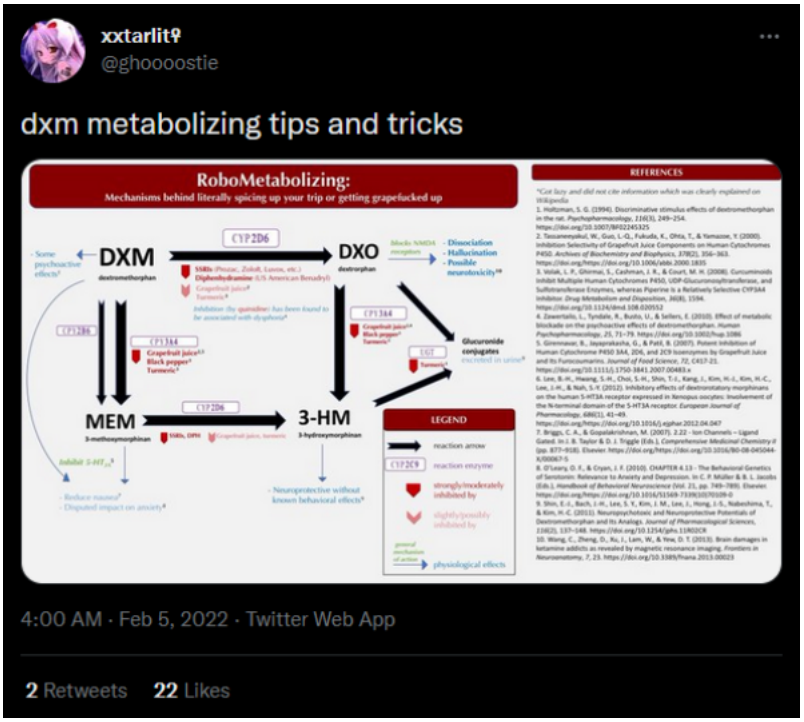
Her giving DXM intake instructions.

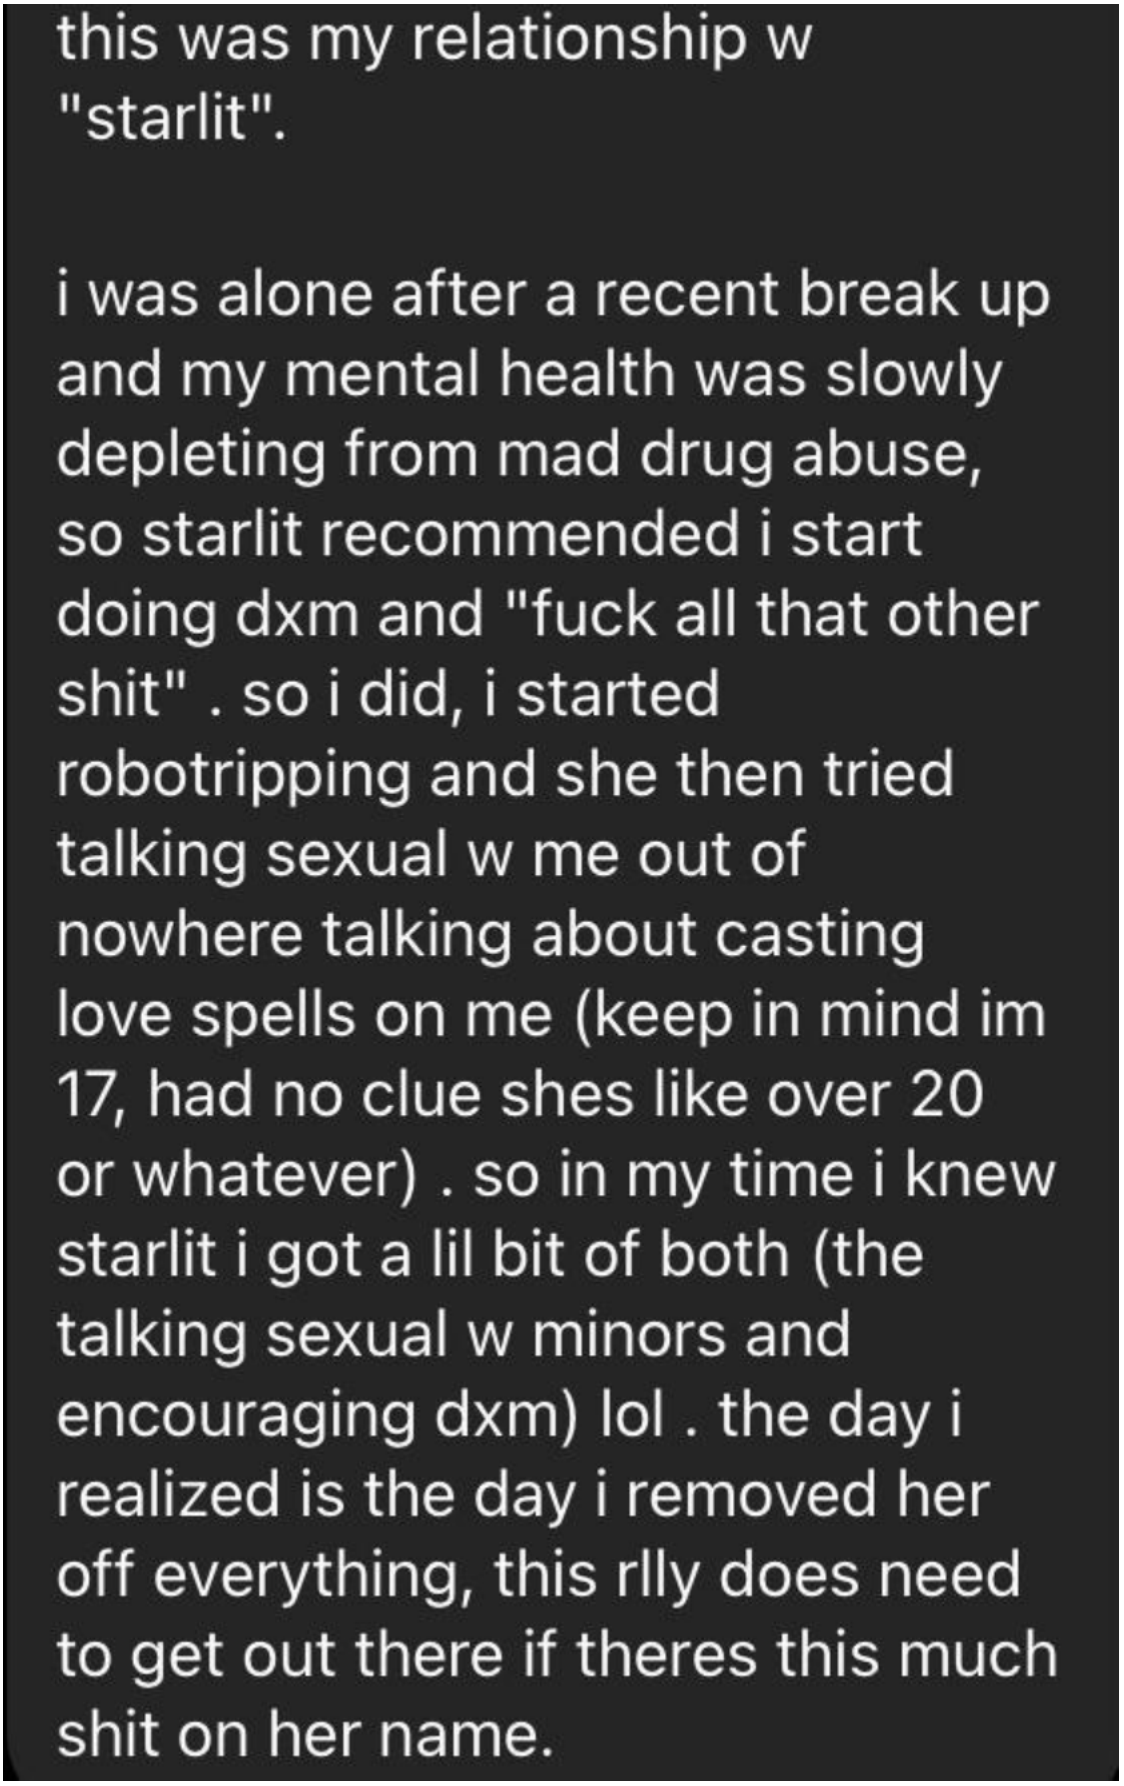


Of course this is very well known with one look at her social media, you can look it up for yourself, it's very easy to find littered across her Twitter. It's her choice to use such a substance, however throughout this document she uses DXM as a way to justify her suspicious and abusive behaviour. In addition, her influence as an artist has made her drive people who've gotten close to her, to start abusing the drug as well on her official Discord server. Everyone who would start to use and abuse DXM would be given the REDLIXXXGHTS role. REDLIXXXGHTS role of course giving access to the aforementioned Hell channel once you've "opened your eye" or some shit while robo-tripping. The concerning thing though is one user who I've mentioned previously, KHAOS was 17 when they first started to take DXM, and was given the REDLIXXXGHTS role and access to all that blood, gore, and shock images. Again, I wish I had taken screenshots while I was there.

Grooming [BLOOD WARNING]

Once again this section will be including blood and self-harm once more, so caution once again proceeding onward. There have been multiple instances of minors, specifically 17 year olds hanging around on her Discord server; as I've previously mentioned with one given the REDLIXXXGHTS role and gaining access to the Hell channel filled with gore and shock content. Nia herself is 23-25 IRL if I am not mistaken and the following includes screenshots and another member in the server who was 17 at the time of communicating with her. Again they would like to stay anonymous for safety reasons; and I do not condone their behaviour in these screenshots. However me and them still believe it's important to show her behaviour and actions to the public.

A bit of a preface from them:



this was my relationship w "starlit".
i was alone after a recent break up and my mental health was slowly depleting from mad drug abuse, so starlit recommended i start doing dxm and "fuck all that other shit" . so i did, i started robotripping and she then tried talking sexual w me out of nowhere talking about casting love spells on me (keep in mind im 17, had no clue shes like over 20 or whatever) . so in my time i knew starlit i got a lil bit of both (the talking sexual w minors and encouraging dxm) lol . the day i realized is the day i removed her off everything, this rlly does need to get out there if theres this much shit on her name.

ohh okay cool coo,, ive never tried dxm how the fuck is it loll ive done acid and made music once and it went terrible ..
白いリルル★ 09/27/2021
dam where do i even start
okay so
dxm is a dissociative is not really a psychedelic
its like ketamine
or pcp
dxm molecule is similar to morphine (its actually a directly mirrored version) and it was created by the cia and the us navy in the late 60s as a non addictive substitute for codeine cough syrup
lower doses are very sedating, like a weed/alcohol crossfade. theres even a bit of opium feel in there for me (edited)
high doses are well, more ketamine or pcp-like
theres dxm-holes
music enhancement
auditory hallucinations
not much visual

no guafinesin or acetaminophen

otherwise you will fucking die

dont be a dumb idiot and read the box
or if you can get packages delivered to your house just order robotablets online

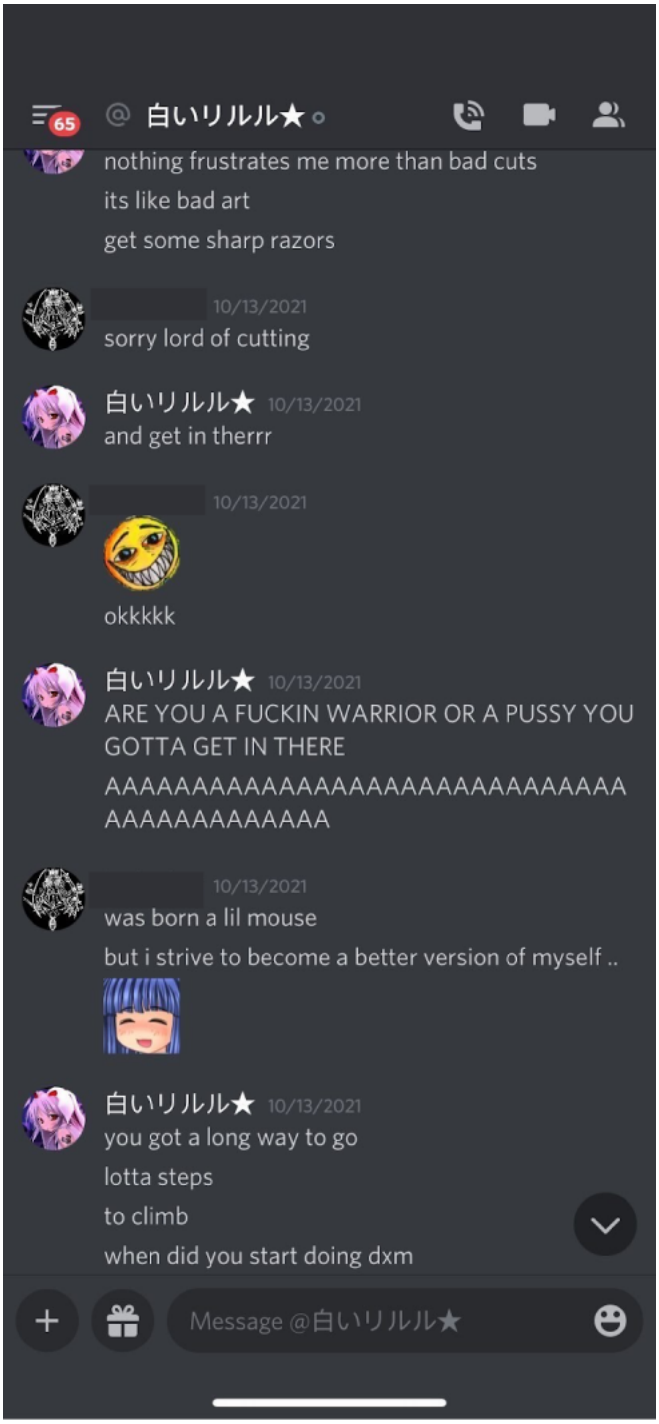
More of her instructing them on how to “robo-trip” on DXM, informing them on where to get them online. And later on after anon started to take DXM, once again, she sends photos of fresh cuts on her arm.



The weirdest part is how she brags on how well her cuts are, and tells anon to “get some sharp razors” and “get in there”, insinuating to anon to harm themselves more brutally like how she does it. It’s honestly quite disturbing as once again, she’s 23-25 IRL and is instructing a minor on taking DXM as well as instructing them to cut themselves in a way more similar to herself.

Lolicon

One more thing to add is of Nia's weird admiration of lolicon. An example being of her emotes on her discord server. She has two emotes on the server named "Uooooooooohhh". This seems like nothing out of the ordinary as these are simply crying/sobbing emotes in the server.

However searching up the term "Uooooooooohhh" reveals it to have ties to lolicon, specifically associated with loli characters and the loudly crying emoji. More info can be found on the Know Your Meme page for the phrase.

Conclusion

We don’t really have much else to add. Doing all of this was tiring and it sucks that so many people had to be exposed to this kinda stuff in the first place, but hopefully putting this out will keep more people away from Nia. The people who Nia surrounds herself with builds her character; you can’t be friends with Nazis and then say you aren’t one. It goes without saying, but Nia’s actions should not go unnoticed. From the fascist beliefs she, Kuro, and her friends believe in. The rampant amount of times she, her boyfriend, and her friends have used the N-Word. The glorification of self-harm and gore inside her server. And of course her abuse of DXM and influencing others in abusing the drug as well. We do not want anyone else to go through the abuse that we’ve endured from her and her friends. Please report her on all of her social medias, we do not want her to have a platform. Thank you for taking the time to read this all the way to the end, if you have and please share this.
